

2014/2015 EUROPEAN VOCATIONAL FUNDING

EU Funded Mobility Programmes

ESF European Funding – professional and innovative Funding Consultancy – delivers EU-funded projects to FE Colleges interested in sending its VET learners to Europe on immersive training programmes.

Our funded programmes are tailor-made to complement UK course requirements. Inspiring travel, languages and cross-border lives, our programmes broaden the horizons of VET learners, investing in the young persons of the UK and Europe.

EU MOBILITY PROGRAMMES

Broadening educational horizons

Promoting language learning

Facilitating cultural immersion

Facilitating social inclusion

European Vocational Funding

ESF organises mobility projects involving young European VET learners from all over Europe, in long and short-term exchange projects.

ESF is specialised in designing, drafting and project managing educational programme for VET students enrolled in UK Further Education Colleges. **International mobility is becoming a must worldwide for students seeking to enter increasingly competitive higher educational and employment markets.**

WHAT WE DO

- Evaluate course objectives and identify the funding programme most suitable for participant needs;
- Identify appropriate partners, drawing upon excellent contact network;
- Negotiate contractual agreement with partners and provide ad hoc legal support;
- Design, draft and submit the final funding application to the European Commission;
- Manage full administrative workload throughout, during and following the application process;
- Broker final agreement with ECORYS UK, national funding agency upon project approval;
- Fully organise, project and event-manage implementation of final approved project.

OUR GOALS

- To broaden the educational horizons of young VET learners, combining technical, professional and social education to offer effective, course-focussed vocational training programmes;
- To promote language learning, enabling young VET learners to traverse communicative barriers, tackling ignorance and xenophobia and fostering mutual understanding;
- To facilitate cultural immersion, enabling young VET learners to learn from persons and organisations of cultures and backgrounds different from their own;
- To facilitate social inclusion, nurturing the free movement of VET learners throughout all Member States of the European Union and European Economic Area (EEA).
